# PANKAJ DUSHYANT YADAV

**SENIOR SDET | QA AUTOMATION ENGINEER | JAVA | SELENIUM | PLAYWRIGHT | API | CI/CD**

+91 7054698767 | pankajdy786@gmail.com | linkedin.com/in/pankaj-yadav-554748244

## PROFESSIONAL SUMMARY

SDET / QA Automation Engineer with 6 years of experience in software quality engineering, UI and API automation, functional/regression testing, backend validation and release testing across Banking, CRM, HRMS, Commodity Trading and E-commerce domains. Strong hands-on experience with Selenium WebDriver + Java, Playwright (JavaScript/TypeScript), REST Assured, Postman, TestNG, Cucumber BDD, SQL and Jenkins. Experienced in building reusable automation components, integrating regression suites into CI/CD, validating APIs and databases, triaging defects and supporting Agile release cycles. Exposure to JMeter, AWS EC2 and AI/LLM application testing. Immediate joiner and open to relocation across India.

## CORE TECHNICAL SKILLS

| | |
|---|---|
| **Programming** | Java, JavaScript, TypeScript, SQL; Python (working knowledge) |
| **UI Automation** | Selenium WebDriver, Playwright, TestNG, Page Object Model (POM), cross-browser testing |
| **API & Services** | REST Assured, Postman, Swagger, REST APIs, API automation, JSON/XML validation |
| **Frameworks** | Cucumber BDD, Hybrid Framework, reusable automation utilities, data-driven testing |
| **Testing** | Functional, Regression, Integration, System, Smoke, UAT, E2E, STLC, SDLC, RTM, Defect Lifecycle |
| **CI/CD & SCM** | Jenkins, Git, GitHub, CI/CD pipeline execution, scheduled regression |
| **Database** | MySQL, SQL Server, SQL queries, backend/data validation |
| **Performance & Tools** | JMeter, JIRA, Extent Reports, Log4j |
| **Cloud / AI** | AWS EC2 (Basic), AI/LLM application testing and response validation |
| **Ways of Working** | Agile/Scrum, sprint planning, release validation, defect triage, cross-functional collaboration |

## PROFESSIONAL EXPERIENCE

**Senior Associate | Acuity Analytics / Acuity Knowledge Services | Mar 2026 – Nov 2026**

*Gurgaon | Banking | US Client* | Tech Stack: Playwright, JavaScript, TypeScript, TestNG, Cucumber BDD, Jenkins, SQL, API Testing, Git/GitHub

- Executed UI and API automation for banking workflows using Playwright, TestNG and Cucumber.
- Developed and maintained reusable automation components to improve repeatability and maintainability of regression execution.
- Integrated regression suites with Jenkins and reviewed execution results for release validation.
- Performed backend data validation using SQL and collaborated with developers on defect triage and root-cause analysis.
- Supported Agile delivery, sprint-level testing, regression, defect tracking and release-readiness activities.

**Senior Test Engineer | EagleDrift Technologies Pvt. Ltd. | Nov 2025 – Feb 2026**

*Bangalore | CRM Automation Platform | US Client* | Tech Stack: Selenium WebDriver, Java, TestNG, REST Assured, Postman, Jenkins, SQL, Maven, Git/GitHub

- Built and maintained a hybrid automation framework using Selenium with Java, TestNG and REST Assured.
- Automated UI and API scenarios and developed reusable framework components for scalable test execution.
- Configured scheduled regression execution through Jenkins and validated transactional data using SQL.
- Performed functional, regression and API testing and supported defect analysis with development teams.

**QA Engineer | Newgen Technomate LLP | Jul 2024 – Oct 2025**

*Pune | HRMS* | Tech Stack: Selenium, Playwright, Java, REST Assured, Postman, JMeter, SQL, TestNG, Jenkins, Git

- Automated dashboard and reporting validations using UI automation.
- Developed API automation for analytics microservices and performed API performance testing using JMeter.
- Worked on sprint automation and improved script stability using retry and exception-handling approaches.
- Supported functional, regression and integration testing, defect analysis and release validation.

**Senior Executive – MCX Technology | Multi Commodity Exchange of India Ltd. (MCX) | Aug 2023 – Jun 2024**

*Mumbai | Commodity Trading Exchange Platform* | Tech Stack: Selenium, Playwright, Java, REST Assured, Postman, JMeter, SQL, TestNG, Jenkins, Git

- Automated regression scenarios for trading workflows and validated financial transactions using SQL.
- Supported sprint planning, release validation and production verification activities.
- Performed functional and end-to-end testing for critical trading workflows and collaborated on defect resolution.

**Test Engineer | Espire Infolabs Pvt. Ltd. | Dec 2022 – Jun 2023**

*Gurgaon | Enterprise Web Application* | Tech Stack: Selenium WebDriver, Java, TestNG, SQL, Postman, Maven, Git

- Executed functional, regression, integration and UAT testing across enterprise web workflows.
- Developed reusable automation utilities and worked with business stakeholders to clarify requirements.
- Supported defect reporting, retesting, regression cycles and release validation.

**QA Tester | SM Web Solutions Pvt. Ltd. | Oct 2020 – Dec 2022**

*New Delhi | E-commerce Platform* | Tech Stack: Selenium WebDriver, Java, TestNG, Postman, API Testing, SQL, Maven, Git

- Performed end-to-end functional and regression testing for web applications.
- Automated critical checkout and payment workflows, executed API tests and validated backend data.
- Participated in defect lifecycle management, retesting and release-quality validation.

## EDUCATION

B.Sc. Information Technology | University of Mumbai | 2021

## ADDITIONAL INFORMATION

Immediate Joiner | Open to Relocation across India |
